NUTRI 2022

ABOUT THE EVENT

Magnus Group has built upon the astounding success and positive feedback from our previous conference, and we warmly welcome you to take part in the “2nd Edition of International Nutrition Research Conference” (NUTRI 2022) which will be hosted in Rome, Italy on June 15-16, 2022.

NUTRI 2022 is scheduled in Hybrid Format with both onsite and virtual versions. We believe that our decision will enable broad participation.

The conference will be organized under the theme “From Evolution to Revolution: A Holistic Perspective on Nutrition’s Frontier Novelties.”

For many people around the world, the year 2020 brought hardships and uncertainty, and our daily habits and behaviors have shifted dramatically. Because of COVID-19, the health revolution has exploded, with top findings for 2021 suggesting a focus on foods that enhance immunity, are affordable, and provide comfort, as well as a radical shift in snacking habits. As we enter 2022, more people will seek out food with a purpose, a story, and that benefits society and health. To meet these emerging trends and demands, food and beverage manufacturers and marketers must continue to evolve. These modifications appear to be a step in the right direction, and this conference will focus on issues that truly matter.

The conference provides the food and beverage industry, researchers, healthcare professionals, food technologists, nutrition experts, scientists, and scholars the opportunity to use our global platform to help consumers navigate their changing needs by showcasing their research findings, latest trends, breakthroughs, and innovations in the field of nutrition.

We envisage that many Food and Nutrition industry experts will attend this exemplary conference and take note of this important educational convention to promote the position of experimentation and progress being made. Nutrition 2022 will also reveal the path to a plethora of fruitful professional opportunities capable of propelling one’s career to new heights.

The focus of the colloquium will be on the role of nutrition in immune system support in relation to COVID 19. Conference goers are guaranteed to leave this extraordinary conference in Rome with cutting-edge strategies, intellectual understanding, and resolutions that will aid them in refining their abilities, work, and experimentation outcomes.

GLIMPSES OF PAST CONFERENCE

PAST CONFERENCE TESTIMONIALS

► **Oksana Lastochkina** Bashkir Research Institute of Agriculture, Russia

Thank you very much for such a wonderful Congress! I was very glad to spend these wonderful days with you. I hope to see you soon.

► **Mohammad Babadoost** University of Illinois, USA.

It was well attended with very timely presentation. Once again, this was one of the best organized international conferences I have ever had.

► **Sergey.A. Kornatskiy** Peoples' Friendship University of Russia (RUDN University), Russia.

I want to thank for the tremendous work on the organization of the forum and the success of the event. Impressions are the most positive. I hope for further meetings and wish you all good luck.

► **Jiri Sedlak** Research and Breeding Institute of Pomology Holovousy Ltd, Czech Republic.

It was fruitful meeting and there were many interesting presentations from the field of plant science and biotechnology
