Invitation

Dear Attendees,

We are glad to announce the **World Conference on Endocrinology and Metabolic Syndrome** to be held in **Singapore** on **October 24-25, 2019** organized in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. **Endocrine Metabolic Syndrome 2019** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Endocrinology and Metabolic Syndrome. As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

This international meet (Endocrine Metabolic Syndrome 2019) anticipates hundreds of delegates including keynote speakers, Oral presentations by renowned speakers and poster presentations by students besides delegates around the world. This conference perhaps a giant event that creates an ideal platform to share expertise addressing current advancements involved in Endocrinology and Metabolic Syndrome. It will be a wonderful opportunity for all the delegates as it provides an international networking opportunity to collaborate with the world class Endocrinology and Metabolic Syndrome Associations.

Sincerely,

Endocrine Metabolic Syndrome 2019

About Singapore

Singapore known as the "lion city," turns into a most loved goal, Singapore is a sovereign state situated in southeast Asia and it is a little – yet prosperous island country, both a city and a country. Singapore officially the Republic of Singapore, is a sovereign city-state and island country in Southeast Asia. It lies off the southern tip of the Malay Peninsula and is 137 kilometres (85 mi) north of the equator. Singapore is separated from Peninsular Malaysia by the Straits of Johor to the north and from Indonesia's Riau Islands by the Singapore Strait to the south. The country is highly urbanized, and little of the original vegetation remains. Singapore's progress over the past three decades has been remarkable, yet the island has not been overwhelmed by development. Visitors will discover a wealth of historical treasures from the past, in the beauty of older buildings, values and traditions that have survived in the face of profound social and geographical change. Singapore is the most wired country in the region.
