Glimpses of ENT Conference

About London

London is one of the world's most significant worldwide cities. It applies extensive impact upon arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transportation.

How to reach London:

London has 5 significant air terminals. Gatwick Airport, Heathrow Airport is the most active Airport, Stansted Airport is the place where modest trips among Europe and Mediterranean land and leave. City Airport is the nearest to central London. Luton Airport and London Southend air terminal are a portion of the major and occupied air terminals in London. Flights like Lufthansa, British Airways, Euroair, Ryanair, Jet aviation routes, Cathay are fundamental carriers to London.

Weather in London during May:

- Temperature: Daytime high temperatures average 15 C - 16 C (near 60 F) early in the month but will warm into the 18 C - 19 C (mid-60s F) by the end of the month..
- Rainfall: About 15 days this month could see some rain, however, only 6-8 days will be considered "rainy days" when at least 1 mm/0.04 inches of rain falls.
- Humidity: The average relative humidity in November is 72%.
- Daylight: The average length of the day in November is 8.3 h.
- UV index: Maximum UV Index value ranges from 3 to 5 symbolizes a moderate threat to individuals from the exposure to the Sun's UV radiation.

Major Universities in London

- Birkbeck, University of London
- Brunel University London
- City, University of London
- Goldsmiths, University of London
- King's College London
- Kingston University
- London Metropolitan University
