## About Venue:

Bangkok, Thailand's capital and city that never sleeps, is a trendy mash-up of diverse cultures and religions. Temples and monasteries coexist peacefully here close to towering skyscrapers. Street bazaars and floating markets compete with luxury shopping malls and purchase centers. Thailand is the 12<sup>th</sup> largest country in Asia, with a total size of over 198,000 square miles and a population of 67.9 million. The majority of foreign visitors to the country travel to Bangkok, one of the world's top tourist destinations. Thailand experiences both the summer and winter monsoons due to its location between substantial areas of land and water. The typical temperature in Thailand ranges from 18 to 38 degrees Celsius. In Thailand, cancer is the top cause of death, and mortality is rising. Therefore, it would be essential to adhere to and share any future study into the treatment of cancer field in order to recommend advancements. [\(click here for more\)](#)

# Past Event Report

## About Past Event:

The **3<sup>rd</sup> International Conference on Pediatrics and Neonatology** held in **Dubai, UAE**, from **November 20 to 21, 2023**, brought together a diverse gathering of healthcare professionals, researchers, and experts dedicated to advancing the field of Pediatrics and Neonatology. With over 80+ talks delivered, the conference covered an extensive array of topics ranging from approaches in neonatal care to adolescent medicine. Sessions delved into areas such as pediatric oncology, mental health, pediatric healthcare strategies, infectious diseases, and advancements in neonatal intensive care. The event provided a fertile ground for networking and fostering collaborations among the 150+ participants, facilitating potential partnerships and knowledge sharing among professionals across diverse geographical regions. The conference sparked thought-provoking discussions and debates on pressing issues in pediatric medicine. Notable insights emerged on personalized medicine for pediatric patients, the role of technology in healthcare delivery, and the importance of mental health support for children and adolescents. Heartfelt thankfulness goes to the Keynote speakers, speakers, moderators, and participants whose contributions and active participation made the **3<sup>rd</sup> International Conference on Pediatrics and Neonatology** a resounding success.

With a big bang, we are thrilled to announce the forthcoming “**4<sup>th</sup> International Conference on Pediatrics and Neonatology**,” a premiere gathering of pediatric healthcare professionals, researchers, and experts worldwide in **Bangkok, Thailand**, on November 18-19, 2024. **Mateja Starbek Zorko**  
Slovenia

Thank you for the opportunity to be with you and participate in the conference. It was amazing and I hope to be able to participate again in such an excellent meeting.

**Luis Ángel Bolio Molina**  
Mexico

I am also grateful to you for providing us with a forum to present our research work, where, for me, it is the third consecutive time that I participate with you. I can say that the event is an excellent means to publicize and disseminate our research work that provides new knowledge for the benefit of children and neonates around the world.

**Khadeeja Yahya Othman Idrees**  
KSA

This is to appreciate your valuable efforts. Your regular contacts encouraged us to participate and made our preparation easier, the hotel booking and accommodation were very satisfactory. The event was very organized, all staff were very helpful and supportive. Moreover, the participants were highly selected, topics were very informative. I liked the huge variety of the participants, sharing experiences, combinations between obstetrics and pediatrics issues. Overall, it was great experience, I wish to join you again in another event.

**John Eric Wilkinson**  
Taiwan

It was a pleasure to come and talk with medical practitioners, who deal directly with the children and their families, I tried to present the bigger picture on what we need to do together in the future to try and preserve the health of the planet earth where we live, and I received few responses from the audience which I enjoyed it.

**Sunita Koreti**  
India

Really it was a nice experience sharing with many experts who came from many countries across the world so sharing our knowledge in this platform was a nice experience. We had come across the innovative ideas; new research works and very informative session. I thank you very much for giving this valuable opportunity to me.

**Javier Jerry Rose**  
Seychelles

The conference was great. I enjoyed every moment. It was good to meet with other people, I met before in at the previous edition of the conference, in Paris, last year. I would like to thank you very much for giving me the opportunity to share our experience with other professionals from around the world. Scientex Conferences provide the ideal platform for exchange of scientific research experiences and continuing professional development. I have learnt a lot from the presentations. My wish is to continue to be part of the growing Scientex family and participate in its activities as much as I possibly can. The conference in Dubai as very well organized...

**Sukanyaa S**  
India

Good afternoon I have been a speaker in the Scientex Conference from department of Pediatrics and Neonatology held in 2023 Dubai. It was a very well organised conference I had a great time listening to all the speakers giving their presentation and it was also very overwhelming for me to present my own. Thank you so much for the opportunity...

**Hanaa Hasan Banjar**
