Emerging Surgery Trends 2025: Redefining Surgical Excellence

October 1-2, 2025 Paris, France

Scientific Sessions:

1. The Future of Surgery: Trends and Predictions
2. Techniques in Laparoscopic Procedures
3. The Role of Augmented Reality in Surgery
4. Tailoring Techniques to Individual Patient Needs
5. Team-Based Surgical Care: Enhancing Patient Outcomes
6. Mentorship Models for Emerging Surgeons
7. Implementing Checklists for Safety in the OR
8. Data Analytics in Improving Surgical Outcomes
9. Challenges in Pediatric Surgery
10. Transplant Surgery Advances
11. Advances in Robotic Surgery
12. Innovations in Surgical Imaging Technology
13. Genomics and Patient-Specific Surgical Planning
14. Overcoming Challenges in Implementing New Technologies in Surgery
15. The Role of Simulation in Surgical Training
16. Best Practices for Surgical Protocols
17. The Impact of Artificial Intelligence on Surgical Practices
18. The Future of Surgical Excellence: Collaboration Across Disciplines
19. Integrative Approaches in Surgical Recovery
20. Trauma Surgery Innovations

REGISTRATION

Academic (Speaker/Delegate) - \$899

Business (Speaker/Delegate) - \$999

Student - \$699

Poster/E-Poster - \$599

Important Dates

JAN 15, 2025

Call for Abstract Open

March 31st, 2025

**Early bird Abstract Submission
& Registration Closing**

September 15, 2025

**Regular Abstract Submission
& Registration Closing**

OCT 01-02, 2025
