ABOUT THE CONFERENCE

WHWC
2027

We are delighted to welcome all healthcare professionals, researchers, industrialists, and advocates to the 2nd Edition of Women's Health World Conference (WHWC 2027), themed "Collaborative Science, Better Health: Uniting Experts in Women's Care," which will be held from 19–21 July 2027 in Singapore. This dynamic event offers valuable opportunities for knowledge sharing and exploring the latest advancements in women's health, reproductive health, maternal care, and related sciences.

The conference will provide a powerful platform for engaging in thought-provoking discussions and presentations with global leaders in women's health. True to its theme, WHWC 2027 will bring together clinicians, researchers, and innovators from across the world to collaborate on shared solutions, break down silos between disciplines, and translate scientific evidence into better health outcomes for women everywhere.

Building on the success of our inaugural edition, WHWC 2026, held in Singapore, which brought together 80+ attendees from across the globe, the 2nd edition aims to strengthen the action and impact of participants nationally, regionally, and internationally. Through an even broader multidisciplinary program, WHWC 2027 will showcase innovative interventions, best practices, and new strategies in women's health, midwifery, maternal and childcare, patient safety, and public health.

The program will feature invited plenary lectures, scientific sessions, and poster presentations highlighting cutting-edge research and practical approaches that advance women's health globally. This edition also welcomes industry leaders and industrialists to explore collaborations, showcase innovations, and forge partnerships that can help translate research into real-world impact for women's health worldwide. By uniting scientists, clinicians, and industry under one roof, WHWC 2027 reaffirms its commitment to the belief that better health for women is achieved not in isolation, but through collaboration.

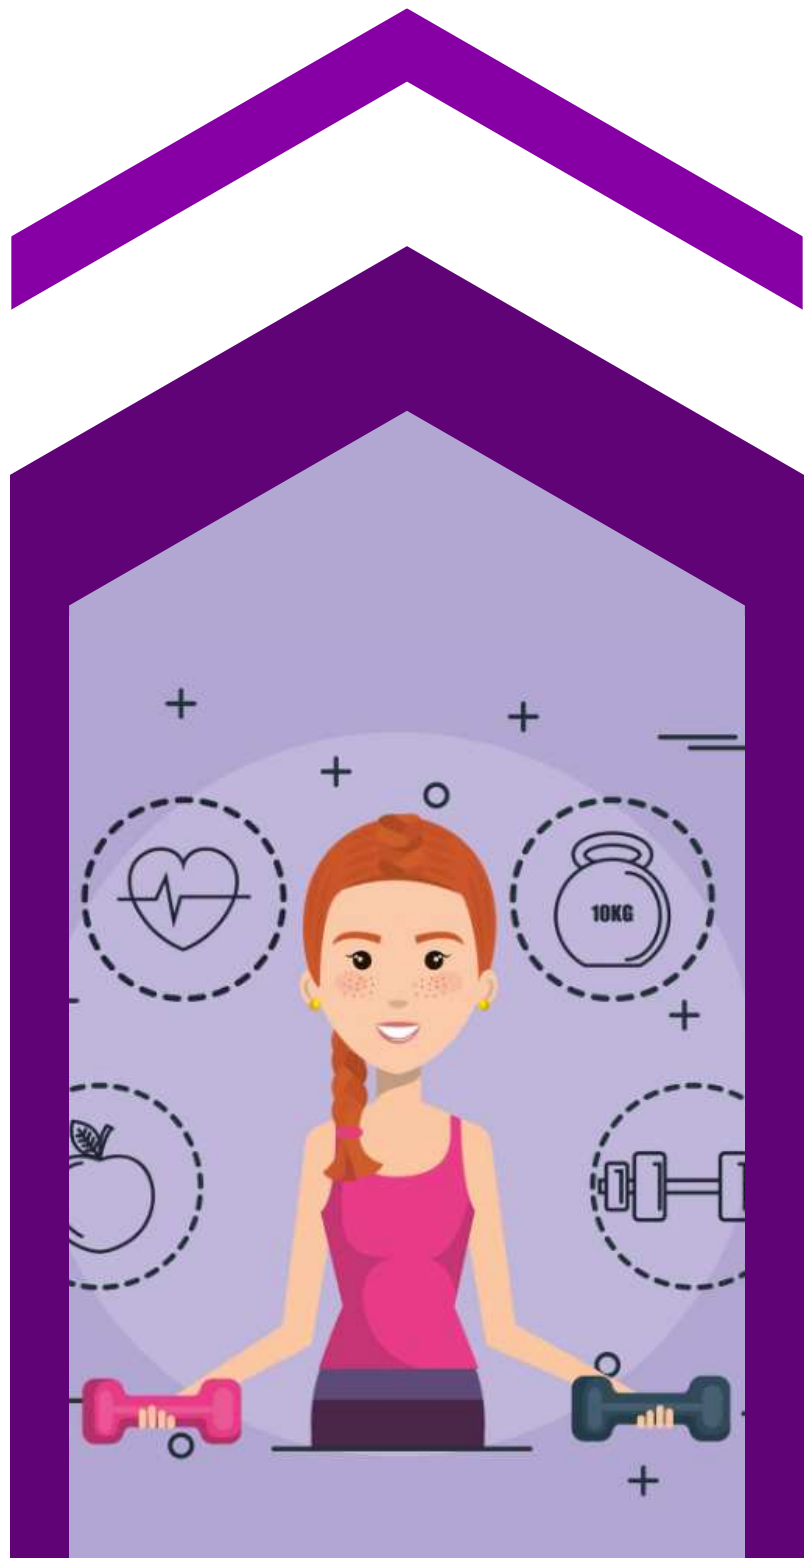

Organized by a committee of renowned experts, WHWC 2027 invites you to join us once again and contribute to making this next edition, guided by the spirit of collaborative science, an even greater success.
